DETAILED ACTION

This action is responsive to application filed 10/27/2003, which is CIP of 10/229,273 claim foreign priority of 60/315,021 filed 8/28/2001.

Claims 1-53 are currently pending in this application. Claims 1, 18, 25, 29, 39, 48 and 50 are independent claims.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-28, drawn to annotation control, classified in class 715, subclass 512.
- II. Claims 29-38, drawn to storage control, classified in class 715, subclass 530.
- III. Claims 39-53, drawn to structured document, classified in class 715, subclass 513.

The inventions are distinct, each from the other because of the following reasons:

Inventions III, II and I are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention (I) has separate utility such as annotation control; invention (II) has separately utility such as storage control, invention (III) has separate utility such as structured document (See MPEP § 806.05(d)).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
